Spotlight Business of the Month
Scenic Regional Library-
Warrenton Branch
Branch Manager-
Robin Schaefferkoetter

My name is Robin Schaefferkoetter. I am a retired teacher, 1st, 2nd, and 8th grade Reading. Upon my retirement from education in 2018, I became employed by Scenic Regional Library in Owensville as the branch manager. My children have moved away and my parents have passed away, so in 2022 I transferred to the Warrenton branch as their manager and have since moved this direction. It's an easy transition from a school to a building full of books.

The library of today is different from the library I grew up in. Today we circulate cake pans, fishing poles, telescopes, microscopes, binoculars, ukuleles, hotspots, Chromebooks, Stem Kits, and Memory Kits. We offer Notary and Passport services. Our Bookmobile is no more, but Storytime lives on from my youth. We offer programs for children, teens, and adults. Take-a-Ticket is once a month and meets the needs of those needing assistance with technology. No appointment is necessary, just bring the device you need help with on the day the library trainer is at the branch. We have 2 book clubs that can be joined. On the 1st, 3rd, and 5th Thursday of each month, the MO Highway Patrol offers driving exams in the meeting room. Bob Dylan once wrote, the times they are a changin'. This is especially true in libraries.

DIRECTORY AND COMMUNITY GUIDE

The Three Most Important Things You Look for in Your Employment Relationship

By: Rick Suttle

There are three key employer characteristics a job seeker should look for in an employment relationship: reputation, career advancement and work balance. These often show up in employment surveys as being most important for candidates. If you want to find out how a potential employer stacks up when it comes to these three things, you can research its websites, read articles about the company and develop a list of questions before each interview.

Reputation and Culture

There are many factors to consider when evaluating a company's reputation. Ideally, it should be profitable, well established and free of ethical or legal problems. If the company is publicly traded, you can research its financial results and Securities and Exchange Commission filings on the investors' page of its website. Make sure the company has track record of consistent earnings and sales growth, taking into account the occasional blip due to a bad quarter or negative economic impact. You should also find out if it has ever been investigated, fined or sued for illegal or unethical activity. If the company is privately held, you might find details about its performance by checking for news articles in local papers or trade journals. You also want to ensure that it is in a growing industry, one that has not been adversely affected by new technologies and market shifts. For example, if you are interested in working in media, you're probably better off finding a job in digital rather than print media.

Career Development

Your employer must first have an open position that is commensurate with your education and experience. The proper job fit allows you to more quickly make positive contributions. Additionally, check with the company about advancement opportunities. Ask the interviewer to describe the typical career path for your particular job. Find out whether others in the department have advanced in their careers, what levels they advanced to, and how long it took to advance to different levels. Check if the company has training systems in place to help you learn your job and develop new skills. Determine whether the employer encourages further education with tuition reimbursement.

Work-Life Balance

Another important element employers must offer is a balance between work and personal life. You should not be expected to always work long hours at the expense of your family life. Employers must also provide adequate time off for workers, including personal days, vacation time and maternity leave. Some employers allow men to take maternity leave to help their wives. During interviews, ask about flex scheduling and work-from-home options. You also can check online surveys regarding employer job satisfaction, which are often featured on job-search and career websites.

Other Considerations

Compensation such as salary, bonuses, profit sharing and health benefits are very important things to look for in an employment relationship and should also be taken in consideration when seeking the right job. You can research the average compensation for most jobs through the Bureau of Labor Statistics' "Occupational Outlook Handbook."
